MEMORANDUM FOR THE DEPUTY TO THE DCI FOR RESOURCE MANAGEMENT

SUBJECT: Draft DASITT Report

References: a. DASITT Report, 23 June 1980.

b. Memorandum for the DCI, subject: Imagery Management and Exploitation (U), dated 21 July 1980.

1. The draft report has been received and the review process is ongoing. Comments have been solicited from the Military Services and affected U&S Commands. As indicated in reference b., legitimate resource issues are raised in the report but certain policy issues are not adequately addressed. In the interim no major program changes should be effected. Planning wedges for AIRES, IDHS-80 and CATIS should be considered but only with compensating GDIP fiscal level increases.

2. DIA will continue to work closely with the Services and Commands to insure the many recommendations in the report are fully addressed and their impact upon the DoD is completely assessed. Additional options for support in the mid 1980's are also being pursued. Detailed comments will be forwarded upon completion of this review.
